*PLACEHOLDER RESUME — replace assets/Stephen-Kiss-Resume.pdf
with your real resume before publishing this site.*

This is a placeholder file so the "Download Resume" button on the portfolio site has something to link to out of the box.

To replace it:

1. Export your real resume as a PDF.
2. Name it "Stephen-Kiss-Resume.pdf" (or update the filename referenced in index.html under the hero __cta section).
3. Overwrite this file in the assets/ folder.
